

- Suggested Species for Shoreline Areas:**
- Muhly grass
 - Dwarf Fakahatchee grass
 - Golden creeper (groundcover)
 - Beach sunflower 'Dune supreme' (groundcover)
 - Marshhay cordgrass and sand cordgrass
 - Golden leather fern
- Additional Suggestions:**
- Lemon bacopa as groundcover on steep slopes where invasive species removed
 - Dahoon holly to replace Brazilian pepper with similar screening plant

- Suggested Species for Littoral Shelves (depth zone):**
- A Fragrant waterlily (A)
 - B Bulrush (B)
 - C Spikerush (B)
 - C Duck potato and broadleaf arrowhead (C)
 - C Swamp lily (C)
 - D Cinnamon fern (D) (shade)
 - D Swamp rosemallow (D)

Depth Zone	Depth (ft)
A	3+
B	2-3
C	1-2
D	0-1

Legend

Invasive Species

- Brazilian Pepper
- Umbrella Flat Sedge
- Wedelia
- Woman's Tongue

Common name	Scientific name
Beach sunflower	<i>Helianthus debilis</i> 'Dune Supreme'
Broadleaf arrowhead	<i>Sagittaria latifolia</i>
Bulrush	<i>Schoenoplectus pungens</i>
Cinnamon fern	<i>Osmundastrum cinnamomeum</i>
Dahoon holly	<i>Ilex cassine</i>
Duck potato	<i>Sagittaria lancifolia</i>
Dwarf Fakahatchee grass	<i>Tripsacum floridanum</i>
Firebush	<i>Hamelia patens</i>
Fragrant waterlily	<i>Nymphaea odorata</i>

Common name	Scientific name
Golden creeper	<i>Ernodea littoralis</i>
Golden leather fern	<i>Acrostichum aureum</i>
Lemon bacopa	<i>Bacopa caroliniana</i>
Marshhay cordgrass	<i>Spartina patens</i>
Muhly grass	<i>Muhlenbergia capillaris</i>
Sand cordgrass	<i>Spartina bakeri</i>
Spikerush	<i>Eleocharis cellulosa</i> and <i>E. interstincta</i>
Swamp lily	<i>Crinum americanum</i>
Swamp rosemallow	<i>Hibiscus grandiflorus</i>
